Annual Subscription to International

WATER POWER & DAM CONSTRUCTION

$65.00 (USA and Canada)
£25.00 (other areas) } **per year including postage**

International Water Power & Dam Construction provides unique world-wide coverage of the field of hydroelectric development and the design and construction of dams for all purposes (water supply, irrigation and flood control, as well as power generation). To join the many specialists currently receiving regular copies of this important journal, please complete the form and send your remittance (payable to IPC Business Press Ltd.) to:
